

BREAKWATER IRREGULARS

July 14, 1971

Excessive winds caused us to cancel our race last evening.

Our next day-race will be on Sunday, July 25. We are planning a raft-up after the race, weather permitting.

The finish line will be between the east breakwater and the Committee Boat. The Committee Boat will anchor either north or south of the west breakwater, depending which side is in the lee. The raft-up will form on the Committee Boat.

If a yacht finishes before the Committee Boat (as so often happens) he will take his time as he passes between the breakwaters, and those of subsequent finishers as well, including the Committee Boat when it arrives.

We are looking forward to seeing you.
