

# BREAKWATER IRREGULARS

August 4, 1971

Course: 32, 32A, Bell 1, to starboard; 34 to port.  
spinnaker leg 3 miles.

Everything was proceeding placidly toward a routine Tuesday evening finish, when the display of heavenly fireworks began over Greenwich. The rain that followed and the little bit of wind that came with it caused panic in the fleet all out of proportion to the actual degree of stress. Darkness tends to magnify one's reaction to the elements; we would lay odds that the same conditions in the daytime would have been shrugged off.

Following is the order of finish.
