

## BREAKWATER IRREGULARS

October 25, 1971

Rain and wind kept us from racing yesterday. Next Sunday, October 31, we have our Final Gun Regatta. Weather permitting, there will be a raft-up north of the West breakwater at the end of the race.

In any event, the finish line lies between the Committee Boat and the East breakwater light. The first to finish will take his time as he passes between the breakwaters and also the times of those who follow, until the RC Boat arrives.

In the absence of Wavemaker's mast, Alibi Four is serving as Committee Boat.
